

LANDFILL PRODUCT DATA SHEET

PNEUMATIC FOAM UNIT 1600/40

A completely self-contained foam generating system recommended for applying daily cover on medium to large landfills with working faces up to 10,000 ft². Exceptionally durable and reliable all-weather design uses easy to replace modular components to maximize your uptime. Can be towed around site with any large equipment such as a compactor or dozer. Foam is applied using a hand-line or with an optional bi-directional manifold.

System includes air compressor, pump, hoses, nozzles, solution storage tank and proprietary foam generating technology. Unit has freeze protection for outdoor storage year-round.

FEATURES

- Simple to operate
- Durable, rugged construction
- No clean-up necessary
- Can be filled and placed aside until needed
